

# Choose Best - to Escape The TRAP

"If you're not paying for the product, then you are the product." - *Daniel Hövermann, former ethicist at Google*. This quote from "The Social Dilemma" hits home, highlighting the alarming reality of social media's impact. Social media isn't just a platform for connection anymore; it's a danger lurking in our daily lives. It steals our time and mental peace through endless scrolling and addictive features. It spreads false information, creating divisions among us and hindering real understanding. Your personal information isn't safe either; it's used to manipulate your thoughts and preferences, shaping your beliefs without you realizing. BigLeap is here to uncover these dangers, aiming to make the internet a safer place for everyone. 🌐 🚫
